

DRYER TOWELS and HEATING PANELS

Glass and Porcelain Tile

The dryer towel racks and heating panels – glass and porcelain tile -, overtake the heating function and bring your home an elegant touch. The variety of colors and textures, in glass and in porcelain tile, give suitability to every decoration style.

The tempered **glass** is a glass that has undergone a chemical or thermic treatment (quinchal) to modify its characteristics, such as hardness and mechanical strength. It can handle domestic heating temperatures, accumulating and radiating heat

evenly. The **porcelain tile** is a ceramic material of reduced thickness, composed by clay and rock materials from different sources, thus, it can be obtained a wide colors and textures range.

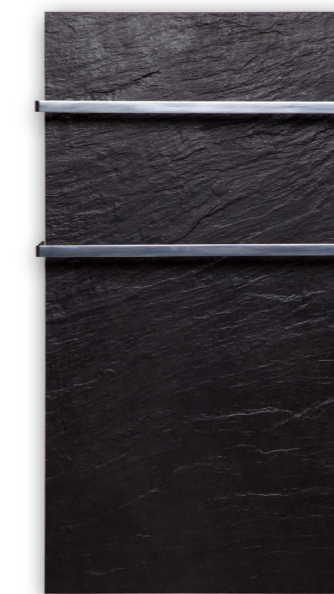

Soon: portable heaters!
